

# Route LA Romane d'Alsace

The Romanesque route in Alsace runs through the plains, vineyards and mountains of the region, taking in more than 120 listed sites. 21 of these, from Wissembourg to Feldbach, have been selected as the main stops on the route.

Created in 1999, this tourist itinerary shows just how much Alsace has cultivated its originality, while remaining profoundly open to exchanges with neighbouring artistic centres.

At the end of the summer, the festival “Voix et Route Romane” brings this extraordinary Romanesque heritage to life, inviting everyone to discover medieval culture through a wide range of events!
